

IN THE SPECIFICATION

At page 3, line 28, please insert the following paragraph:

BRIEF DESCRIPTION OF THE DRAWINGS

Fig. 1 shows a diffusing layer embodiment of the invention.

Fig. 2 shows an embodiment of the invention having a diffusing layer comprising a mineral particle layer and an electromagnetic insulating device, and a substrate.

Fig. 3 shows an embodiment of the invention having a substrate, a mineral particle layer, and a conducting layer placed between the substrate and the mineral particle layer.

Fig. 4 shows an embodiment of the invention having a substrate with a mineral particle layer on one side of the substrate and a conducting layer on the opposite side of the substrate.

Fig. 5 shows an embodiment of the invention having a mineral particle layer with an electromagnetic insulating device incorporated therein.

Fig. 6. shows an embodiment of the invention containing a mineral particle layer containing a binder, and an electromagnetic insulating device.

Fig. 7 shows an embodiment of the invention having an electromagnetic insulating device, a coating, and a mineral particle layer.

Fig. 8 shows an embodiment of the invention having a light (e.g., a light source, a backlighting system, a lamp) and a diffusion layer.

At page 5, line 31, please insert the following paragraph:

DETAILED DESCRIPTION OF THE INVENTION
